- Maximum Residual Disinfectant Level (MRDL) The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
- SGL Single Sample Result RTCR – Revised Total Coliform Rule
- NTU Nephelometric Turbidity Units

GENERAL INFORMATION

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water posed a health risk. More information about contaminants or potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426- 4791). Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-com-

promised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791). If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. KLEMME WATER WORKS is responsible for providing high quality drinking water, but cannot control the

variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead. SOURCE WATER ASSESSMENT INFORMATION This water supply obtains its water from the sandstone, dolomite and limestone of the Devonian, Cambrian-Ordovician aquifer. The Devonian, Cambrian-Ordovician aquifer was determined to have low susceptibility to contamination because the characteristics of the aquifer and overlying materials provide natural protection from contaminants

at the land surface. The Devonian, Cambrian-Ordovician well will have low susceptibility to surface contaminants such as leaking underground storage tanks, contaminant spills, and excess fertilizer application. A detailed evaluation of your source water was completed by the Iowa Department of Natural Resources, and is available from the Water Operator at 641-587-2660. CONTACT INFORMATION For questions regarding this information or how you can get involved in decisions regarding the water system,

please contact KLEMME WATER WORKS at 641-587-2660.

GARNER CITY COUNCIL MINUTES 5.28.24

Garner City Council Meeting Minutes 05/28/2024

The Garner City Council met at City Hall on May 28, 2024. Mayor Schmidt called the meeting to order at 5:30 PM with the following councilors present: Damon Quandt Marline Lewerke, Glen Juhl, and Don Bell. Also present were the City Clerk Karen Halder, Park & Rec Director Karla Rudisill, Assistant P&R Director Carlee Frayne, and the City Administrator Jim Collins. A motion by Lewerke to approve the agenda was supported by Juhl. Mo-

tion carried 4-0. Tim Maas explained to Council that his request for a variance at his home, 710 W 6th Street, to build an attached garage was denied and asked what his next steps would be Council directed Maas to request to be placed on the agenda.

A motion by Juhl to approve the consent agenda. less the Atura invoice, that included the May 14 minutes, financials, claims report, contract approval of Brighton Kraus. Dustin Schulz, and Avery Moritz as baseball hitting instructors, VFW's 14-day outdoor Class C Retail Alcohol License, and tobacco permits for Hancock County Co-op oil and Dollar General was supported by

Bell. Motion carried 4-0. Park & Rec Director Rudisill introduced Carlee Frayne as the new Assistant Park & Rec Director. Emergency Management Coordinator Andy Buffington asked

Council to fill-out the 2024 Hancock County Hazard Mitigation Update Form in preparation for the Mitigation Response Plan update. A motion by Juhl to approve the VFW's request to close Center Avenue from 3rd to 4th Street on June

ported by Lewerke. Motion carried . 4-0. A motion by Quandt to add baseball complex parking lot striping to Iowa Lot Striping's bid of \$6,800 to repaint city street markings and approve the bid was supported by

15 for the Huinker benefit was sup-

Bell. Motion carried 4-0. A motion by Lewerke to approve the Park & Rec Board's recommendation to purchase fitness steps and cart for \$2,896, weight room equipment for \$2,379,78, and wire the high school softball scoreboard for

\$2,596, was supported by Bell. Motion carried 4-0. A motion by Lewerke to approve the third and final reading of Ordinance no. 469, an ordinance amending provisions pertaining to garbage and recycling fees, was supported

by Juhl. Ayes: Juhl, Quandt, Lewerke, Bell. Nays: None. Motion car-A motion by Juhl to approve Reso-

lution no. 2024 - 026, a resolution accepting the dedication of the Reserve Court cul-de-sac as a public street for general traffic use was supported by Lewerke. Ayes: Juhl, Quandt, Lewerke, Bell. Nays: None. Motion carried 4-0.

Drew Sweers, V&K Engineering, updated council on the following projects: 2024 Lyon Street Overlay, Pickleball Court, and Storm Sewer. Sweers noted that there will be a change order for the storm sewer project as part of the pipe to be sliplined turned-out to be 10 inches instead of the expected 8 inches.

Sweers further recommended that homeowners impacted by the storm sewer construction be allowed to water the newly seeded grass for free.

Juhl applauded Quandt's extensive volunteer work on the new baseball complex to get it ready for opening

Quandt shared that several people volunteered many hours of their time at the new baseball complex in preparation for the upcoming season. A motion by Lewerke to adjourn the meeting at 6:31 PM was supported by Juhl. Motion carried 4-0. Karen Halder City Clerk Tim Schmidt Mayor

CITY OF GARNER ORDINANCE NO. 469

ORDINANCE No. 469 AN ORDINANCE AMENDING THE CODE OF ORDINANCES OF THE CITY OF GARNER, IOWA, BY AMENDING PROVISIONS PER-TAINING TO GARBAGE AND RE-CYCLING FEES

BE IT ENACTED by the City Coun-

cil of the City of Garner, Iowa: SECTION 1. SECTION MODIFIED. Section 106 08 of the Code of Ordinances of the City of Garner, Iowa, is repealed and the following adopted in lieu thereof: 106.08 COLLECTION FEES.

The collection and disposal of solid waste as provided by this chapter are declared to be beneficial to the property served or eligible to be served and there shall be levied and collected fees therefor in accordance with the following: (Goreham vs. Des Moines, 1970.

1. Schedule of Fees. The fees for solid waste collection and disposal service, used or available, are:

179 NW 2nd, 449)

A. For each residential premise there shall be a flat service charge of \$6.50 per month plus \$6.00 per month recycling fee, which shall be billed to the owner, renter or occupant of said property.

B. The owners of multi-family units shall pay a flat rate service charge of \$6.50 per month plus \$6.00 per month recycling fee for each dwelling unit. The owners of trailer parks shall pay a flat service

charge of \$6.50 per month plus \$6.00 per month recycling fee for each trailer. C. For commercial, industrial, and institutional premises, as negotiated by the owner or operator and

the collector.
SECTION 2. SEVERABILITY CLAUSE. If any section, provision, or part of this ordinance shall be adjudged invalid or unconstitutional. such adjudication shall not affect the validity of the ordinance as a whole or any section, provision, or part thereof not adjudged invalid or unconstitutional.

SECTION 3. WHEN EFFECTIVE. This ordinance shall be in effect from and after its final passage, approval, and publication as provided by law.

Passed by the Council the 28th day of May, 2024, and approved this 28th day of May, 2024. /s/Timothy Schmidt, Mayor ATTEST: /s/Karen Halder, City Clerk

GENERAL INFORMATION Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some

contaminants. The presence of contaminants does not necessarily indicate that water posed a health risk. More information about contaminants or potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426- 4791). Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly

at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/ CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791). If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. BRITT WATER WORKS is responsible for providing high quality drinking water, but cannot control the

variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead. ADDITIONAL HEALTH INFORMATION

Infants and young children are typically more vulnerable to lead in drinking water than the general population. It is possible that lead levels at your home may be higher than at other homes in the community as a result of materials used in your home's plumbing. If you are concerned about elevated lead levels in your home's water, you may wish to have your water tested and flush your tap for 30 seconds to 2 minutes before using tap water. Additional information is available from the Safe Drinking Water Hotline (800-426- 4791). SOURCE WATER ASSESSMENT INFORMATION This water supply obtains its water from the limestone and dolomite of the Devonian aquifer. The Devonian aquifer

was determined to have low susceptibility to contamination because the characteristics of the aquifer and overlying materials provide natural protection from contaminants at the land surface. The Devonian wells will have low susceptibility to surface contaminants such as leaking underground storage tanks, contaminant spills, and excess fertilizer application. A detailed evaluation of your source water was completed by the lowa Department of Natural Resources, and is available from the Water Operator at 641-843-4433 CONTACT INFORMATION
